- Python
- C++
- SQL

### Database

- MySQL
- MongoDB

### Framework

- React JS
- Tailwind CSS
- jQuery
- Bootstrap

## LANGUAGES

- Hindi
- English
- Marathi

## PROFILE

I'm a passionate web developer who loves creating dynamic and user-friendly web applications. Right now, I'm focused on improving my skills by building personal projects using modern tools like JavaScript and the React.js framework. I enjoy the process of turning ideas into functional, responsive designs and constantly learning along the way.

## PROJECTS

### Movie Details Fetcher

JavaScript

A JavaScript project that fetches and displays movie details using an API. Allows users to search for movies and view key information like title, genre, plot, and ratings in a responsive UI.

### Country Info Search

React JS

A React.js project that fetches and displays country details using an API. Users can search for a country and view information like name, capital, population, region, and flag in a responsive UI.

### TechScope

React JS

A React.js project that fetches and displays the latest tech news from an API. Users can search and browse real-time headlines with sources and summaries in a responsive UI.

### Calculator

JavaScript

A JavaScript-based project that performs basic arithmetic operations like addition, subtraction, multiplication, and division. Features a simple and interactive UI for quick and easy calculations.
